INTERNATIONAL PRELIMINARY EXAMINATION REPORT

International application No.
PCT/US03/17445**V. Reasoned statement under Rule 66.2(a)(ii) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement****1. STATEMENT**

Novelty (N)	Claims <u>1-22</u>	YES
	Claims <u>NONE</u>	NO
Inventive Step (IS)	Claims <u>1-22</u>	YES
	Claims <u>NONE</u>	NO
Industrial Applicability (IA)	Claims <u>1-22</u>	YES
	Claims <u>NONE</u>	NO

2. CITATIONS AND EXPLANATIONS

Claims 1-22 meet the criteria set out in PCT Article 33(2)-(3), because the prior art does not teach or fairly suggest a desiccant cap comprising a planar portion and a docking piece, wherein the planar portion has a flanged portion extending transversely from its outer circumference and the planar portion has a recessed port area provided with an aperture.

The closest prior art reference found is US Patent 4,457,843 to Cullen et al. The planar portion taught by Cullen et al. does not extend transversely from the outer circumference of the planar portion nor does the planar portion have a recessed port having an aperture.

Claims 1-22 meet the criteria set out in PCT Article 33(4), and thus have industrial applicability because the subject matter claimed can be made or used in industry.
